

Institutional Dealing

Precision, Liquidity, Execution

Seamless Execution for Institutional Investors

At Pergamon Investment Bank, we specialize in executing large-scale transactions with precision, confidentiality, and efficiency. Our Institutional Dealing team provides customized trading solutions for pension funds, asset managers, insurance firms, corporates, and other institutional investors.

With deep market liquidity, sophisticated execution strategies, and expert market analysis, we ensure that institutional trades are executed efficiently while minimizing market impact and optimizing returns.

Our dealing team offers a tailored and proactive approach, providing direct access to market opportunities and ensuring that your trades align with your investment objectives.

Maximize Market Opportunities Today

Work with Pergamon's Institutional Dealing Desk for fast, secure, and efficient execution.

What We Offer

Institutional Trading & Execution

- Seamless execution of large transactions.
- Direct access to deep market liquidity for optimal price efficiency.
- Confidential trade execution to protect institutional strategies.

Fixed Income Dealing

- Institutional access to Treasury Bills (T-Bills), Treasury Bonds (T-Bonds), Eurobonds, and corporate bonds.
- Tailored bond portfolio strategies to enhance yield and manage duration risk.

Block Trades & Cross Transactions

- Execution of large block trades while minimizing market disruption.
- Structured cross-transactions for institutional liquidity management.

Market Insights & Order Management

- Pre-trade, at-trade, and post-trade advisory to support execution decisions.
- Advanced execution algorithms to reduce slippage and improve trade efficiency.

Dedicated Dealing Desk

- Personalized support from a dedicated institutional trader, ensuring bespoke execution

strategies.

- Real-time market monitoring and intelligence to capture the best trading opportunities.

Why Trade with Pergamon?
